

## COUNTRY SALES BY PROFIT AND PRODUCT QUATERLY.

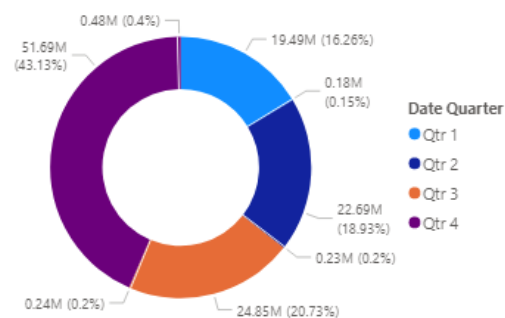

Sales by Country

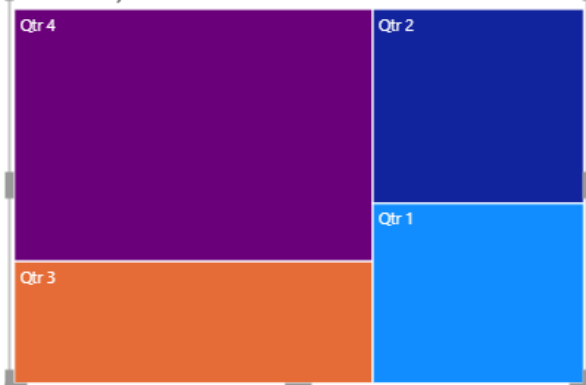

Profit by Country and Product

Sales and Units Sold by Quarter

Discounts by Quarter

The four part visualization simply shows how each country made sales, quarterly sales by unit sold, profit made by each country in respect to the product sold and finally discounts given quarterly to particular product.

From this report we can begin to visualize what each country make from each product sold, each unit of the product and the profit made over a period of time. But now let us not forget that we also have the quarterly discounts given on each product.
